

ICT Schools Team Exam Results in SIMS

Summer 2025

Presented by – Gill Kershaw

Note to attendees

- This document is for guidance only. Please see useful links at the end of the presentation for full guidance notes on processes for Exam Results import and calculation.
- Screenshots are for example only and may not be current year.

What we will cover....

What's New this year?

Managing Performance Measures

- Cloning from previous years
- Managing Existing Qualifications
- Importing Qualifications Data
- Managing New Qualifications

Exam Results Day Preparations

- Permissions
- Embargo
- Setting up Seasons and Performance Indicator Parameters
- Opening PI Cohorts
- Manual Single/Multiple Results Entry
- Performance Discounting
- Reporting

What's new?

Delete Component results

- **Tools | Performance | Assessment | System Utilities | Results | Delete a selection of Exam Component Results**
- This enabled deleted of 'unwanted' results only
- NOTE This option is for **Exam Component Results only**. The existing routines and functionality should still be used to manage all other results.

Update to Gender labels

- Throughout the exams functionality in SIMS Exams and Exams Organiser, the term 'Gender' has been replaced by the term 'Sex'.
- The **Group Filter**, which is used for Exams and elsewhere in SIMS, has also been updated to use the term 'Sex' for reports.

Managing Performance Measures

Cloning Performance Measures

- Performance measures **must be** cloned from 2024 into 2025 to be available for broadsheets if required.
- If you didn't clone previous years, in 2025 you will not see any year available for cloning
- The DfE only publish QAN's attracting Post 16 funding in their catalogue. There is the ability to manually enter other QAN's into SIMS.

Why is this necessary?

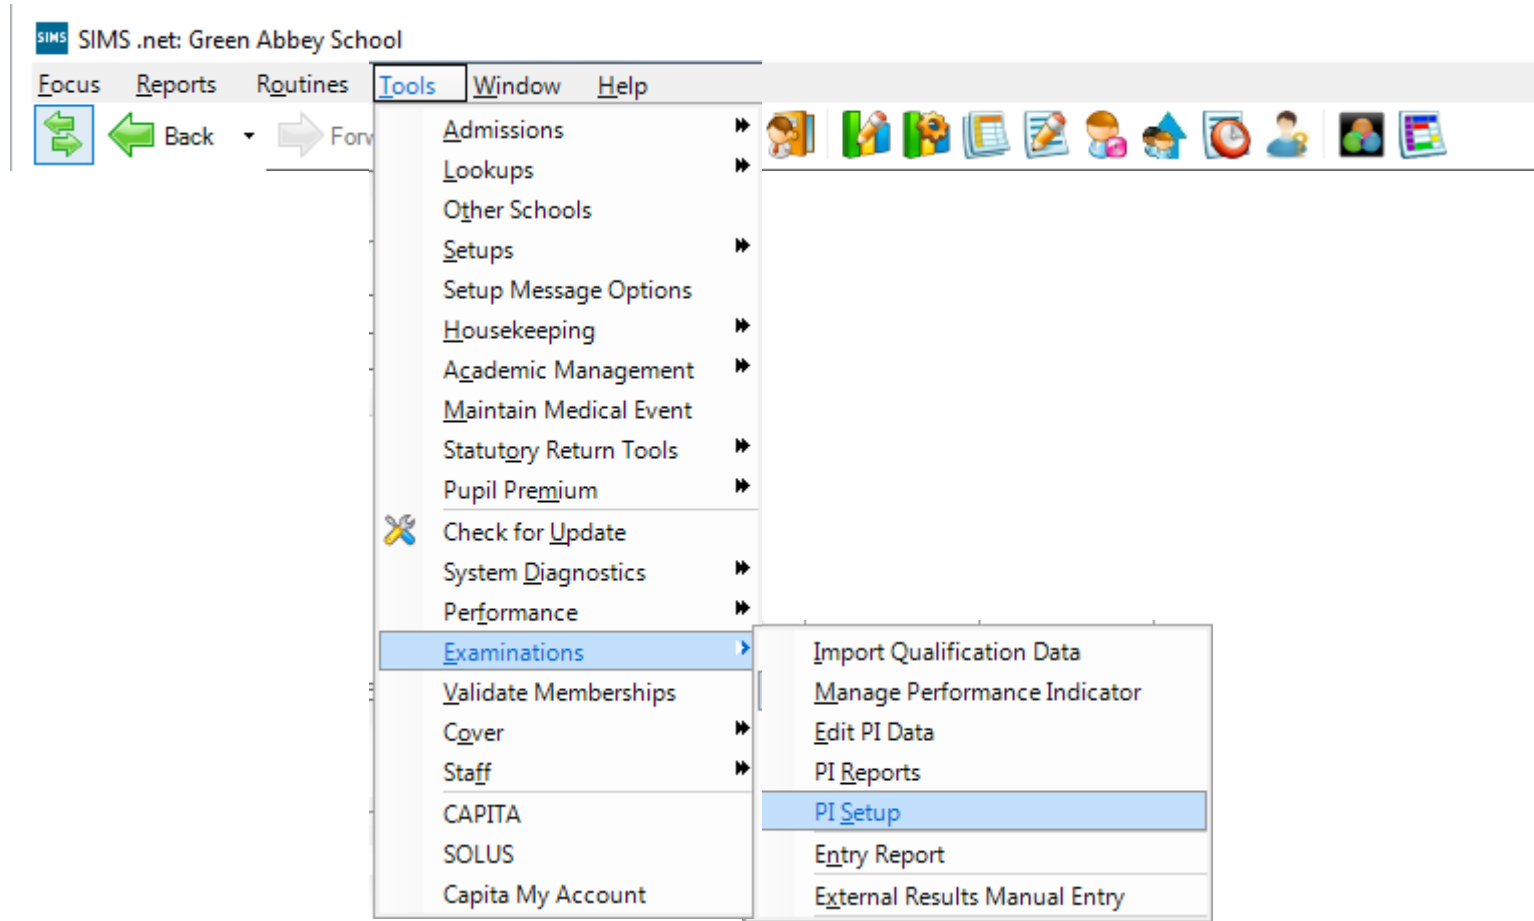

If you do not clone then:

- **Candidate Statement of Results** will show zero points.
- **Certification Broadsheet** has a column 'Entries' - this is taken from the entry equivalence in Manage Performance Indicator. QNs with no Equivalence or 'missing' from the Manage Performance Indicator area will have zero equivalence and not count as an entry in this report
- When **adding Non-EDI results**, the qualification won't be recognised if not present in Manage Performance Indicator and the following fields will need to be manually selected – Subject, Level, Awarding Body.
- **Group Performance Analysis Report** will not include results for QNs not present in Manage Performance Indicator.

Cloning Performance Measure Year 2025

- Clone will only work when Summer 2025 season is in place.
- The clone will copy into 2025 any QN's that had results against them for 2024.
- This process does not delete or make unavailable any of the previous year's QNs but makes the 2025 list more manageable by assuming repetition.
- A QN that was available but not used in 2024 but is used in 2025 can individually be copied over.
- QNs used in 2024 but not in 2025, may be removed from 2025 lists.
- New QN's that have never been available for examination before can be added.

Managing Performance Indicators

Qualification Numbers (QNs) are applied to each individual exam award.

These are used to universally identify the exam board provider, the level being studied and the subject of an exam.

To ensure that the most current QNs available for each course of study are being used, you are strongly advised to download and then import the QWS catalogues provided by the DfE.

PI Cohorts

Don't forget to check the pupils in your Cohorts

Two PI Cohorts:

- **Key Stage 4 (KS4)**

Members are calculated on the basis of students on roll in **curriculum year 11** on the January (Spring) census day.

- **16-18 Cohort (Age 16+)**

Students are considered at the end of 16 to 18 study, and are therefore 'triggered' for inclusion if;

- a) they have entered for at least 2 qualifications, each of which is at least the size of an A level or they have entered for at least 1 qualification the size of at least 2 A levels, in the reporting year;

OR

- b) they are 18 at the start of the reporting year and have not been reported in 16 to 18 performance measures at their current allocated school or college.

Members are calculated on the basis of students aged 16-18 on roll on the January (Spring) census day.

Setting up Season and PI Parameters

- A storage location should be specified already for all Performance Reports, using the **Folder for Performance Reports** panel.
- NOTE: The storage location must be on a **secure shared area** on your network.
- You may wish to check the current location and discuss this with your Network Manager before the end of term.

Manual entry

All results for qualifications taken at your school to be counted in the performance measures should be entered via Tools/Examinations/Edit PI.

- Highlight the student
- This box remains blank until you have entered a valid Qualification Number in the QN field.
- Refresh
- Once the grade is selected the Equivalence boxes will automatically update.

The screenshot shows the 'Add Result' window in the SIMS system for student 'Abbey Jimmy'. The window has a 'Save' button at the top left. The 'QAN' field is a large text box with a 'Refresh' button to its right. Below this are four dropdown menus: 'Subject', 'Course', 'Level', and 'Awarding Body', followed by a 'Title' text box. A 'Grade' dropdown menu is located below the title field. Under the 'Grade' menu, there are two main sections: 'Key Stage 4 Equivalence' and 'Level 3 Equivalence'. Each section has 'Entry' and 'Points' input boxes. To the right of these sections are grade ranges 'A*-C' and 'A*-E' with corresponding input boxes. At the bottom right, there is a 'Discounted' checkbox.

NOTE: The QN code must be entered without slashes.

Manual entry

- If a Level 1 or Level 2 QN, the **Key Stage 4 Equivalence Entry** and grade value fields are populated automatically.
- If an AS QN, the **Key Stage 4 Equivalence Entry** and grade value fields and the **Level 3 Equivalence Entry** fields are populated automatically.
- If an A2 or other Level 3 QN, only the **Level 3 Equivalence Entry** fields are populated.

Remember – The QN MUST be listed in the Manage Performance Indicator area to populate this area

Collating and Calculating

Remember!

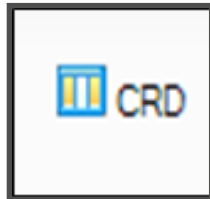

- Can only be calculated in seasons where June is an associated month
- Ensure you have assigned QN/SCC codes to all of the elements in use at your school
- Cloned and Edited the Performance Indicators from the previous year

For every student in each cohort, Exams Organiser

- collates the results
- applies automatic discounting (according to current rules)
- calculates the Attainment 8 values
- creates the exams PI aspects in SIMS Assessment

Collating and Calculating

What's the difference?

Calculate Resetting Discounting

All manual discount ticks are discarded on collation – only automatic discounting rules are applied.

Calculate Keeping Discounting

Manual discounting will automatically be re-applied after collation

IF YOU HAVE MANUALLY DISCOUNTED DO NOT USE CRD UNLESS YOU REALLY HAVE TO!!!

- A white background indicates a standard EDI result that has been added via a marksheet or imported via a results file.
- A green background indicates a result that has been added manually in the current exam season.
- A yellow Discounted cell indicates that you have changed the original Discount status of the result.

Performance Table Report

SIMS.net

 The analyses made in our PI reports since 2022 are based upon the calculation methodologies prior to the DfE's introduction of specific rules whereby most results achieved by students during the Covid Pandemic (Centre Assessed or Teacher Assessed Grades) can count as entries only.

For nearly all schools, where none of the students in their year 11 cohorts for 2022 and/or 2023 were awarded Centre or Teacher Assessed Grades, the analysis will be accurate, and representative of the grades achieved.

Where a number of students have been awarded Centre or Teacher Assessed Grades, the results which would ordinarily be counted in the 2022 and/or 2023 analysis should be subject to the "entry only" rules. Education Software Solutions/SIMS have been unable to update our calculation algorithms for the summer 2022 or 2023 release of SIMS to take account of this.

The impact of these changes will be very much reduced in 2023 as fewer students in this year's cohort will have taken exams/achieved results during the Covid affected years and this affect will reduce further as we move forward.

By proceeding I acknowledge the impacts this will have on my reports.

Further Information

Further information

BTEC basedata is routinely issued without discount codes.

These can be added via the 'Basedata' properties.

~~A repeatable patch which uses the QAN mirror tables, imported for the post-16 Learning Aims census, to identify and assign the correct code automatically. Patch 17395 will be released on SOLUS to facilitate this.~~

Post Webinar Note: This patch has been withdrawn. Please email SchoolTST@buckinghamshire.gov.uk if you wish to enquire about a replacement.

Please return frequently to Schoolsweb for information on any further exam related patches following the upgrade
